Web to print solutions

Sound familiar?

- You need to lock your customers in by getting them to buy online
- Your existing sales team doesn't have the time or experience to implement such a change
- You want to avoid the cost of additional permanent resources

What we do...

Working with Pacific Marketing Suite, suppliers of one of the most user-friendly and cost-effective online print and MRM solutions available; we provide short- and medium term sales resources to ensure that you fully exploit the emerging opportunities within web to print and MRM through a partnership to achieve maximum success with minimum outlay.

What to do next...

For existing customers:

- look for common features in their buying patterns and ask yourself if this could be automated to reduce cost
- examine your existing work and ask yourself if the items ordered are part of a bigger picture and if so, how much work are you NOT getting?
- Call **Terry Wells** for a free, no-commitment evaluation. If we think we're not right for you, we'll say so.

Remember: your customers are almost certainly looking for more efficient ways to place their print orders. Call us now to make sure they do it with you!
